

News under the West African sun

Winter sport season is nearing its end, and so is the 'cold' season for part of West Africa. The focus is on the upcoming summer and plans are being made. Time for us to let you know about our beautiful summer journeys!

Togo Summer journey

Do you like to travel to places, that have not yet been discovered by the crowds?

Togo may meet your travel needs!

Accompanied by our local contacts and guides we have visited known and especially lesser known places over the past few months. We got back home brimming with inspiration for beautiful journeys. And it's with pleasure that we present our Togo Summer journey.

The Togo Summer journey combines local life in the mainly animist South with visits of special areas in the North of the elongated country.

From the coast till the traditional tatas in Tamberma Country near the Benin border, the journey is a sequence of culture, nature and most of all a meeting with local life. You'll taste local dishes, visit with local families, meet village chiefs, learn from a local basket maker, set out on a journey by motor - the local taxi - and have the opportunity to attend the spectacular Bassar fire dances. A journey through non-touristic Togo is a feast for the senses!

Available as a [small-scale group journey](#) (10-25 August) and as a tailor-made journey.
