

Experience Mali man-powered boat trip on the River Niger

A very pleasant way to enjoy Ségou is from the water. Set out on a boat trip on the River Niger to experience the city in a different way.

On this trip no motor is used. The boat will be man-powered. The quite pace of traveling provides quality time on the water. The trip takes you along the shores of Ségou giving you the chance to get a good impression of local life on the river shores, where there's always a lot to see.

Set out on an early morning trip to see the sand fishermen at work.

Set out on a late afternoon trip to enjoy sunset on the river.

Enjoy slow travel on the river!

Route

Ségou surroundings

Duration

1 hour

Best visiting time

year round - depending on the water level
